WHAT PORN TAKES:

Choice:

You may think it's harmless, but porn has the power to take over your survival instincts and force you to continue watching.

Intimacy:

You have a basic need for affection. Porn disrupts your ability to receive that affection, no matter how healthy your surroundings may be.

Achievement:

Like all addictions, porn makes itself your master so that everything leads back to it. In time, it will be the only thing that defines you.

Happiness:

You can't choose for yourself, give or receive affection or achieve your goals. Porn produces the conditions of our misery.

Porn Takes These Too:

- Sexual Performance
- Spiritual Fulfillment
- Mental Health
- Friends and Family

- Communication Skill
